FANUC DD MOTOR α iS-B series

Features

- Large torque by strong neodymium magnets
- Low torque ripple by optimum magnetic circuit design
- Standard models applicable to both 200V and 400V input
- High speed, high precision, and maintenance free by direct drive
- Suited to rotary tables of a machine tools and rotary axes of 5-axis machines
- Water cooling available as well as current oil cooling

System configuration

FANUC's products

α iCZ SENSOR

High reliability by simple and strong structure
High accuracy sensor gear manufactured by gear grinder
with FANUC original learning control
Compact structure contributing to compact rotary axis

Control Technologies

SERVO HRV⁺ Control

SERVO HRV⁺ Control which is the latest digital servo technology realizes high speed and high precision machining.

In case of driving one axis by plural motors, sometimes stability is not secured because of interference between motors. Stabilizing functions to prevent interference between axes, are prepared in order to secure stability.

Servo Learning Control

Combination of DD Motor and Learning Control, which achieves high precision, is best suited to cam grinding or gear cutting machine.

- Maximum 262 seconds learning time and maximum 24 learning profiles are available.
(Suited to cam grinding machine)
- Combination of Learning Control and EGB (Electronic Gear Box) minimizes synchronization error.
(Suited to gear cutting machine)

Service & Support

Excellent Maintenance Services

FANUC service team delivers customer trust and confidence based on direction of service “Maximizing Uptime”, “Global Service” and “Lifetime maintenance”.

Service First

Conforming to the spirit of “Service First”, FANUC provides lifetime maintenance to its products for as long as they are used by customers, through more than 260 service locations supporting more than 100 countries and regions throughout the world.

Maximizing Uptime

FANUC ACADEMY

FANUC ACADEMY operates versatile training courses to develop skilled engineers effectively in several days.
